LIVE SURGERY with Enrico Robotti

Rhinoseptoplasty requires dedication and a long learning curve. Major recent changes in techniques have made this operation more complex, more lengthy, but undoubtedly with significantly improved results.

Even the best rhinoplasty courses worldwide have the drawback of a large faculty with different point of views to be expressed in a limited time. This may lead attendees to some confusion and a desire for further guided learning.

This course will allow a maximum of 35 attendees to spend 3 full days in live HD connection with the operating room, as well as be exposed to lectures and videos on the many issues and current refinements that matter most in primary and revision rhinoplasty. The last day will be a brainstorming session devoted to review,

video-focuses and case presentations brought both to and by attendees.

I will share my favorite techniques, in all their details and nuances on 6 open rhinoplasties, 4 primaries and 2 secondaries. The former will show different deformities on males and females, while the latter will involve rib reconstruction.

All cases will be analysed preop and discussed postop. I will also give key lectures on the current principles of reshaping tip and dorsum both in primary and secondary open rhinoplasty.

It is my belief that this course will allow, due to its format and the limited number of attendees, a special and unique learning experience.

Enrico Robotti

ITEMS WHICH WILL BE COVERED

- Preop analysis and postop assessment
- Access and its details
- Limited dissection vs degloving
- Component separation-incremental reduction
- Cerkes perichondrial-periosteal flap
- Different osteotomies
- Correction of deviation
- Power tools and piezo for osteoplasty and osteotomy
- Avoiding step-offs at the keystone
- Augmenting and lowering the radix
- Spreaders and autospreaders
- Use of perforated ethmoid plate
- Debulking the skin in thick-skin patients
- Managing the drooping and bulbous tip
- Tongue-in-groove and septal extension grafts
- Tip sutures and their algorithm
- Achieving a straight and properly oriented sidewall
- Lateral crura struts and alar contour grafts
- Alar wedges
- Rib harvesting and fashioning
- DCF (Diced Cartilage Fascia) and free diced cartilage
- Deep Temporal and Rectus fascia harvesting and application
- Current variations of DCF:
the SPF (sandwich perichondrium fascia) construct

DAY 1

Wednesday - October 17, 2018

08:00 INTRODUCTION KEY CONCEPTS/ TECHNIQUES MASTERCLASS ON PRIMARY RHINOPLASTY

(modern management of the Tip and Dorsum)

09:00 CASES ANALYSIS

09:15 CASE 1 (PRIMARY)

14:00 CASES ANALYSIS

14:15 CASE 2 (PRIMARY)

18:30 DAY REVIEW

DAY 2

Thursday - October 18, 2018

07:15 INTRODUCTION KEY CONCEPTS/ TECHNIQUES MASTERCLASS ON SECONDARY RHINOPLASTY

(principles of L strut reconstruction, rebuilding dorsal lines, sidewall and tip, choice of donor sites)

08:15 CASES ANALYSIS

08:30 CASE 3 (PRIMARY)

13:00 CASES ANALYSIS

13:15 CASE 4 (SECONDARY)

19:00 DAY REVIEW

DAY 3

Friday - October 19, 2018

07:30 CASES ANALYSIS

07:45 CASE 5 (PRIMARY)

12:30 CASES ANALYSIS

12:45 CASE 6 (SECONDARY)

18:30 DAY REVIEW

20:00 COURSE DINNER

**COFFEE AND LUNCH
WILL BE PROVIDED**

DAY 4

Saturday - October 20, 2018

08:30 VIDEOfOCUS on Managing the DORSUM in Primary Rhinoplasty (including case examples in detail)

09:15 VIDEOfOCUS on Managing the TIP in Primary Rhinoplasty

(including case examples in detail)

10:00 VIDEOfOCUS on Specific Personal TIPS&TRICKS

10:30 COFFEE BREAK

11:00 PIEZO and POWER TOOLS for Osteotomy and Osteoplasty

11:30 STRAIGHTENING THE SEPTUM and CROOKED NOSE (video)

12:00 MALE and AGING NOSE Rhinoplasty

12:30 Managing the DISCREPANT SKIN ENVELOPE

13:00 LUNCH

14:00 VIDEOfOCUS on DCF (Diced Cartilage Fascia) and RIB in SECONDARY RHINOPLASTY (Harvesting, shaping and using rib, tailoring the DCF graft)

14:30 SECONDARY RHINOPLASTY with RIB (video)

15:00 Burning questions and unresolved issues

15:30 Cases brought by attendees to Dr Robotti

16:15 Cases brought to attendees by Dr Robotti

17:00 Adjourn and goodbye cocktail
