

Rib Grafting in Secondary Rhinoplasty

from A to Z

Rhinoplasty
Society of Europe

live surgery course

April 04

April 06, 2024

Enrico
Robotti

live surgery course with Enrico Robotti

Rhinoseptoplasty requires dedication and a long learning curve. This is even more true with the nuances and complexities of secondary rhinoplasty. This is the most complex scenario where a clear algorithm, flexibility in intraoperative choices, attention to detail and mastery of numerous tips and tricks make the true difference in results.

This specific, intensive, course will allow attendees to understand and learn in every detail my current approach to rib grafting in secondary rhinoplasty. By interactive live HD connection with the operating room, as well as by the extensive use of talks and videos, I will share in-depth with the attendees

all my current favorite techniques in autologous rib grafting, including the use of SPF-SPLF technique to provide aesthetic dorsal lines. Four revision cases with rib will be demonstrated in all their steps, focusing on the decision process and extensively commenting every technical detail.

Secondary rhinoplasty is a difficult operation and mastery of autologous rib grafting is indispensable for those who want to practice it actively.

It is my belief that this course will provide, due to its classroom like format, a special and unique learning experience.

Enrico Robotti

Items which will be covered

- Preop analysis of the secondary patient

- The relevance of cone-beam CT scan in analysis - planning

- Rib harvesting

- Harvesting perichondrium and rectus fascia

- Rib shaping and laminating

- Current variations of DCF: the Robotti SPF (sandwich perichondrium - fascia) and SPLF technique (sandwich perichondrium - rib lamina - fascia construct)

- SPLF variations and "Rib Cartilage Plaster"

- Access to the tip and dorsum

- Proper dissection in difficult planes

- Power Tools and Piezo for osteoplasty and osteotomy: the perfect combination

- Use of available residual septum and perforated ethmoid plate

- Finesse reconstruction of dorsal L-strut and tip by rib laminations

- Rib septal extension grafts, lateral crura struts, sidewall reshaping and else

- Combined constructs with the residual septum

- Trans-osseous suturing of the L-strut

- Camouflage to the tip by perichondrium and else

- Preservation concepts applied to secondary rhinoplasty

- Personal special instruments for refined rhinoplasty practice

- Postop care and what matters practically

day 1

Thursday - April 04, 2024

08:00	INTRODUCTION KEY CONCEPTS/ TECHNIQUES MASTERCLASS ON FINESSE IN USING RIB IN SECONDARY RHINOPLASTY	13:00	LUNCH
		15:00	CASE ANALYSIS
09:15	CASE ANALYSIS	15:30	CASE 2
09:30	CASE 1	20:00	DAY REVIEW

day 2

Friday - April 05, 2024

08:15	CASE ANALYSIS	14:30	CASE 4
08:30	CASE 3	19:30	DAY REVIEW
13:00	LUNCH	21:00	SOCIAL DINNER
14:00	CASE ANALYSIS		

day 3

Saturday - April 06, 2024

08:15	VIDEOFOCUS on Managing the DORSUM with Rib Grafting (including case examples in detail)	11:30	VIDEOCLIPS on finesse RIB grafting techniques in SECONDARY RHINOPLASTY (Harvesting, laminating and using rib, tailoring the DCF/SPF/SPLF grafts, deriving the malleable "RIB PLASTER"
09:00	VIDEOFOCUS on Managing the TIP with Rib Grafting (including case examples in detail)	12:00	SECONDARY RHINOPLASTY WITH RIB: the steps in summary (edited video)
09:30	VIDEOFOCUS on Specific Personal TIPS&TRICKS	12:30	"Speak up!" Burning questions and unresolved issues
10:00	COFFEE BREAK	13:00	Cases brought by attendees
10:30	PIEZO and POWER TOOLS for Osteotomy and Osteoplasty Videofocus	13:30	Adjourn and goodbye cocktail
11:00	STRAIGHTENING THE SEPTUM and CROOKED NOSE Videofocus		

registration fees

The registration fee includes:

- admission to the scientific sessions
- coffee breaks and lunches
- social dinner
- goodbye cocktail
- unlimited personal online access for six months
- tips and tricks videoclips collection provided on a pendrive

Early rate: 2800 Euros

- payment received UNTIL January 31, 2024
- VAT included

Late rate: 3300 Euros

- payment received FROM February 1, 2024
- VAT included

Online registration available on
